

# Old Cemetery Records

The old cemetery lies across the road to the east and a short distance to the south of Edgewood Cemetery. The following list of those interred was compiled using information found on the tombstones and from some old cemetery documents. After being exposed to the weather for many years, some tombstones were very difficult to read and some were completely unreadable. However, we are indebted to Mr. Rufus Powers for his efforts to record and preserve this information for use by the general public and for future generations.
